WEDNESDAY, OCTOBER 5, 1864. Advance in Prices of Subscriptions

and Advertising.

In consequence of the increased cost of wages, paper, and other materials, telegraphic reports, subsistence, &c., the Proprietors of the NASHVILLE Ustox have been compelled to advance the price of subscriptions, advertising, &c. They have adopted a new schedule, as appears above, and which will go into effect on Monday, Scot. 26th, and be scrupulously adhered to.

This step has been taken reluctantly, but after mature deliberation; and not until we were satisfied that it could no longer be safely deferred. We trust, however, that it will not be long before the country is relieved of the high prices which are draining the resources of business men, and we can return to the old rates. We shall be most happy to return to them as soon as circumstances will justify. In the meantime we solicit the continued support of the friends and patrons of the Usion.

The rooms are neat and clean, the beds and bedding ditto, and the servants know their places and fluties. THIS CERATE HAS BEEN IN USE BY THE FRENCH ARMIES FOR THE PAST FIFTY YEARS I and there is no Franch soldier who does not know its value.

It was also used extensively by the allied armies in the Crimean war, and such were the benefits derived from its use that it has acquired a world-wide reputation, and no soldier who knows of its merits will be for a single week without a box in his knapsack, as by the use of this Cerate he always has a subgurst against the various recubles to which a soldier is subject, as by using it on his clothing, he can prevent the appearance of vernils, and the diseases of the skin enumerated above, and after they have made their appearance, it is but little trouble, with the aid of this Cerate, to rid himself of these disagreeable enough. The proprietors have gone to a great expense to produce the original recipe of Dr. Velloc, with full lirections, and the apparatus for manufacturing the Gerate, as it has been made by the original inventor and have produced the
